

**DHERANA INTERNATIONAL PVT LTD** is committed to preserve our environment and natural resources. In making this commitment, our goal is to provide services in a manner that reduce our carbon footprint and minimize any negative impact on the environment.

To achieve our objective, several steps have been taken to minimize and eliminate harmful emission and recycle waste. Specifics are noted below and it's our belief these measures will help protect, preserve, and enhance the environment now and in the future for the benefit of our clients, employees and the public at large.

It is our intention to conserve resources by:

- Considering the environmental implication of all goods and services we intend to purchase & wherever practical, select those that are least damaging to the environment.
- Minimizing our waste and pollution. (Recycling plant waste converting to compost & by not burning we maintain carbon foot print)
- Using energy and fuel efficiently.
- Protecting & where possible improving natural habitats.
- Promoting customer and employee understanding of environmental issues. (We have implemented state of the art Automized Irrigation Systems and achieve a 30% reduction of water consumption & minimizing the wastage of water)
- Ensuring that all employees are aware of their individual responsibilities in the implementation of this environmental policy.
- Continuously receiving and improving environmental performance by modifying working practices and introducing appropriate technology.
- Assisting Local Authorities in achieving their targets.

DHERANA INTERNATIONAL PVT LTD will do everything in its power to ensure that our activities comply with the standard and procedures identified. The procedures will be continually reviewed to ensure that they remain relevant.

DHERANA INTERNATIONAL PVT LTD are committed to maintaining open and full consultation on environmental performance with the appropriate regulatory bodies, principle contractors, the general public and site owners.
